

CS544 Midterm – June 2023

Before:

Be sure to do the **W2D5 Review** on Sakai– it provides 5 out of the 100 exam points, and needs to be submitted before the exam starts!

When / Where:

The exam will start at 10am in our class room (V32). I will be here, along with 2 proctors.

The exam will stop at 12:30, most students should have finished before then. If there are a significant amount of people not done at 12:30 everyone should still hand in – I will adjust the grading.

How:

- You can bring one page (front and back) of handwritten notes
- No bathroom breaks
- No talking
- No cellphones allowed, either leave them at home or drop them off at the front.
- Please try to fit all answers on the provided pages, although extra paper will be available in case of emergencies.

What:

- 5% the review you have to submit to me before the exam starts
- Theory questions 24% 3 points per question, 8 questions
- Code questions 71% – all repeats from the quizzes
 - What are the tables based on the following annotations
 - What are the annotations based on the following classes and tables
 - Write a JPQL query that ...
