CS544 Final – June 2023

Before:

- Be sure to do the end of course feedback

- Be sure to submit your project (also on Sakai).

- Be sure to do the **W4D3 Review** on Sakai– it provides 5 out of the 100 exam points, and needs to be submitted before the exam starts!

When / Where:

The exam will start on Thursday the 22nd of June at 10:00am in the V32. I will be there along with 3 other people to proctor the exam.

The exam will stop at 12:30pm, most students should have finished before then. If there are a significant amount of people not done at 12:30pm everyone should still hand in – I will adjust the grading.

How:

- You can bring one page (front and back) of handwritten notes

- No bathroom breaks

- No talking, No Cellphones (leave them at home or at the front of the class)

- Please try to fit all answers on the provided pages. Blank pages are available.

What:

- 5% the review you have to submit to me before the exam starts

- Theory questions 24% about 8 questions, each question will be 3 points

- What is the output 15%

- Repo, Service, Controller questions about 41% – code questions

- AOP question (make an AOP class with some advice) about 15% – code question
